

Altin Guberi - Albania

What is your motivation to apply for this position to become a Board member for the chapter?

I would like to apply for this position as I think it is an amazing and valuable opportunity to learn and to have a better understanding of WBAA with certain focuses. I think it would also be a wonderful opportunity for exchanging, sharing opinions and ideas regarding the aim of the activity which would also help improving in terms of personal developments and professional careers. Last but not the least, I think it would be an awesome idea and place for creating new professional networks and connections, but also possibility of initiation of new onward projects. As a professional it would enable me new tools, capabilities, and methodologies to better assess the situation and get better outcomes of the project. When it comes to the organisational part, I believe it will enable the recognition of our existing projects and take them to another level of development and implementation.

What are your plans for being a Board member? (What is your plan of action for the period you are selected?)

My plan of action consists of the representation of WBAA in the events. Moreover, I would encourage and present compliance with Code of Conduct and the Statue. I would be open and willing to present new ideas or plans to take the work and the activities of the WBAA to another level and moreover I would also be open to learning. I would constructively engage myself in the working groups, arranged meetings and working plans

What skills and qualities can you bring to this position?

I am very capable of working independently on projects, as well as being a team player who is fully dedicated to putting in the work that is needed. Moreover, I have great people skills. I am patient and believe strongly in conflict resolution and a can work well with others.

Describe yourself in three words

Resilient. Focused. Open-minded.
