

The **WBAA Tracer Study** is an online survey that was sent to students and graduates from the six Western Balkan (WB) countries who spent part of their studies outside the region.

The aim of the study was to **identify effective approaches for improvements in the higher education system in the WB** based on their experiences.

From the **1,320 people** who participated in the survey...

Montenegro
quick fact sheet

5%
are from
Montenegro

from
which:

74%
had an
**Erasmus+ Mobility
programme**

85%
went abroad being
under 25 years old

48%
went abroad for
1 semester

34%
are members of
WBAA

Their main **fields of study** are:

32%
Arts & Humanities

27%
Social Sciences, Journalism
& Information

11%
Business, Administration
& Law

85%
believe lecturers abroad were
**much better at
explaining things**
than lecturers in the WB

After their mobility
most of them recommend the following
for **improving higher education
in the Western Balkans**:

73% **Practical application**
of knowledge

70% **More freedom to
choose courses**

76% **Modernising
infrastructures**
at universities

Like in other WB countries, the greatest
**motivations for
mobility** are:

**Personal growth
& new experiences**
**Living & studying
in a new country**
**Access to a better
education system**

And most Montenegrins choose

Slovenia
as their
host country

After their mobility

40% want to
**live in their
own country**

and also

79% feel more
tolerant towards
others' values
and opinions
